

**You can request juvenile records from the Division of Juvenile Justice and Delinquency Prevention using the online forms below. Note that these are the agency records, not the official court records, but still could be helpful if you need juvenile information about a client.**

**\*\*\***

The Division of Juvenile Justice and Delinquency Prevention is pleased to announce the creation and launch of an [online web form](#) for use by the public in requesting juvenile records.

**Anyone contacting JJDP to request confidential juvenile records may use this form** to initiate their request, which will route directly to the JJDP Records Office for processing. Anyone making contact directly with JJDP staff such as Juvenile Court Counselors or Social Workers may be directed to this portal, which includes a FAQ, request guide and the Juvenile Justice Behavioral Health consent form, in addition to the actual request form.

Links to this [Juvenile Records Request form](#) can be found on the [JJDP home page](#), as well as through the [DPS Public Records Request site](#).

Though the use of this portal is not mandatory, it is encouraged.

Please refer any questions to the JJDP Records Manager, [Erin Hickey](#).
