

OCTOBER UPDATE: PAC FUND

October 7, 2025

IDS and the North Carolina state government continue to operate under the terms of the continuing budget resolution.

IDS believes that the continuing budget, coupled with the \$10 million appropriation in non-recurring funds granted from a mini budget passed this summer, is sufficient to keep the PAC Fund solvent for the entire fiscal year.

Absent any unforeseen circumstances, IDS does not expect any slowdowns in PAC payments through June 30, 2026.

We will continue with monthly updates to keep you informed. As always, thank you for the work you do on behalf of your clients.

Staff continue working to ensure that payments to you remain at no more than 45 days from receipt of the fee app(s) in Raleigh.

Who can I contact if 60 days have passed and I haven't been paid?

Please contact the IDS Financial Services staff member assigned to your county. Please have the case name, case number, disposition date, the date submitted to the judge, and your tax identification number on hand when you call.

If you have several cases to research, email is best.
