

MARCH UPDATE: PAC FUND

March 16, 2026

IDS and the North Carolina state government continue to operate under the terms of the continuing budget resolution.

Based on current trends in PAC spending and on the uncertainty about receipts, it is **possible** that the PAC fund will be depleted prior to the end of the fiscal year ending June 30.

IDS is confident that PAC fund availability will last into June, and any disruption to payments would be brief.

We will continue with a monthly update to keep you informed. As always, thank you for the work you do on behalf of your clients.

Staff continue working to ensure that payments to you remain at no more than 45 days from receipt of the fee app(s) in Raleigh.

Who can I contact if 60 days have passed and I haven't been paid?

Please contact the IDS Financial Services staff member assigned to your county.
Please include the case name, case file number, disposition date, the date submitted to
the judge, and your tax identification number in your email.
